HAFTINA ATELIER — Liturgical vestments created in accordance with Catholic tradition

The proper setting of the mass is essential for Christians. Thanks to our work, the liturgy takes on a new expression. The liturgical vestments offered by our company make the service a special and more spiritual event. Our products are the result of 30 years of multigenerational experience. We realise projects that complement church celebrations such as beatifications, conferences, synods, and jubilees not only in Poland but also worldwide.

Our domain is special orders. On special request, we make liturgical vestments with images of saints or any other chosen designs, which also emphasise the rank of the ceremony. We offer assistance and professional service based on many years of experience.

As a leading manufacturer of liturgical vestments, we have confirmed our professionalism during events such as:

- World Youth Day in Cracow in 2016,
- World Meeting of Families in Dublin with the participation of the Holy Father Francis in 2018,
- Pope Francis' Apostolic Visit to Lithuania and Latvia in 2018,
- Pope Francis' Apostolic Visit to the Democratic Republic of the Congo in 2022.

We invite you to familiarise yourself with the offer available in our catalogue.
